INDEPENDENT ACCOUNTANTS' REVIEW REPORT

Board of Directors
The Los Angeles Valley College Foundation

We have reviewed the accompanying statements of financial position of The Los Angeles Valley College Foundation (a nonprofit organization) as of June 30, 2014 and 2013, and the related statements of activities and cash flows for the years then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Organization management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Our reviews were made for the purpose of expressing a conclusion that there are no material modifications that should be made to the financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America. The supplementary information on pages 11 and 12 is presented only for purposes of additional analysis and has been subjected to the inquiry and analytical procedures applied in the reviews of the basic financial statements, and we are not aware of any material modifications that should be made to such information.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014 AND 2013

NOTE 1 - NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Activities

The Los Angeles Valley College Foundation (the "Organization" or "Foundation") is designated an Auxiliary Organization of Los Angeles Valley College ("LAVC" or the "College") and the Los Angeles Community College District in accordance with the California State Education Code. The Foundation supports various student programs to promote student skills. It also provides scholarships to students and faculty and opportunities for students to meet potential employers. The Organization is supported primarily through donor contributions and fund-raising efforts.

B. Basis of Presentation

The Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets.

C. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of management estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and revenue and expenses during the reporting period. Actual results could differ from these estimates.

D. Investments

Investments are reported at their fair values in the statements of financial position. Donated securities are recorded as contributions at fair value at the date of donation. Unrealized gains and losses are included in the change in net assets. Investment income and gains restricted by donors are reported as increases in unrestricted net assets if the restrictions are met (either by passage of time or by use) in the reporting period in which they are recognized.

Cash equivalents such as money market funds are classified as investments.

E. Revenue Recognition

The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions.

F. Risks and Uncertainties

The Organization holds a variety of investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to such risks associated with investments, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term could materially affect the amounts reported in the financial statements.

G. Donated Services

Donated services are recognized as contributions if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are performed by people with those skills,

and would otherwise be purchased by the Organization. Los Angeles Valley College ("LAVC") pays the salary of the Organization's employees, as well as providing office space and supplies. Effective July 1, 2013, the Foundation is required to reimburse LAVC 50% of this amount. The value of donated services amounted to \$94,663 and \$195,959 for the years ended June 30, 2014 and 2013, respectively. In addition, LAVC provides the use of office space and utilities. LAVC quantifies the value of such space and utilities; however it doesn't require payment in light of scholarships awarded to students and direct donations made by the Foundation to the College. Volunteers also provided various services throughout the year that were not recognized in the financial statements since the criteria for recognition were not met.

H. Income Taxes

The Organization has received tax-exempt status under Section 501(c)(3) of the Internal Revenue Code and the corresponding California tax code. The Organization has adopted guidance on accounting for uncertainty in income taxes issued by the Financial Accounting Standards Board. Management believes that the Organization has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. As of June 30, 2014, information returns for periods after the year ended June 30, 2010 were subject to examination by authorities.

NOTE 7 - SCHOLARSHIPS

Scholarships totaling \$176,512 and \$105,400 were issued in the years ended June 30, 2014 and 2013, respectively.

NOTE 8 - ENDOWMENTS

An endowment is a gift or board-designated reserve whose funds are invested to provide continuing income, in perpetuity, for a general or specific purpose stated in a written endowment agreement between the donor and the Foundation. The Foundation's endowment funds consist of funds functioning as an endowment through (a) board designation, (b) temporarily restricted funds managed as endowment funds, and (c) donor-restricted endowment funds. The earnings of the Foundation's endowment funds support scholarships and awards, campus programs and projects, professorships, and Foundation operations.

Endowment funds are invested in accordance with the Los Angeles Valley College Foundation policy and the asset allocations set forth in Note 3. The Foundation's investment strategy emphasizes total return for long-term growth, while preserving capital, minimizing risk, and maintaining reasonable liquidity. Interest and dividends generated by endowment funds are appropriated for use as set forth in the applicable agreements. Endowment earnings in excess of the approved utilization are generally credited to the corpus of the endowment. Endowment funds comprised the following as of June 30, 2014:

	Endowments Funds			
	Board Designated	Temporarily Restricted	Permanently Restricted	Total

NOTE 9 - FAIR VALUE MEASUREMENTS

U.S. GAAP defines fair value, establishes a consistent framework for measuring fair value and sets forth disclosure requirements about fair value measurements for all financial and non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring or non-recurring basis.

The prescribed fair value hierarchy and related valuation methodologies are as follows:

Level 1 – Inputs are based on quoted prices in an active market.

Level 2 – Inputs are quoted prices for similar instruments and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data.

Level 3 – Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.
